

Guide For A Owning A Wolverine

(In A Petting Zoo)

Meet The Wolverine!

So, your probably thinking OH MY GAWD FLUFFY! Then you start plotting about how it would be perfect for your petting zoo. Then money symbols pop into your eyes and you think **Ching Ching!** Well, you better think twice, or else you better **HAVE** money.

OMG WOLVERINE

X-MEN

So, when most people think about Wolverine, they think about Wolverine from X-Men! Or sexy Hugh Jackman. BUT! They greatly mistaken something!

DA DA
DA
DAAAA!

Wolverine, a.k.a smexy Hugh Jackman, were named AFTER the animal Wolverine! Want to know why? Wolverines will tear you apart. You know those funny cartoons, when the cat jumps onto the owner face and starts to scratch, their face? Yeah, thats what a wolverine can do but only 100_x worse. Now, X-Men Wolverine has fuckin sharp claws too. Why? Cause his name is Wolverine just like the animal that so happens to have FUCKIN SHARP CLAWS! That will tear you apart! Fun, right?

If that doesn't change your mind. Let me show you something! You think their all fluffy?

WARNING!! NOT FOR THE FAINT OF HEART!

OMG FLUFFY AND CUTE I
WANT TO PET AND HUG ONE!
-squels-

~After you hug one

This, this is what happens. I can not show you the human after affect cause it is too gruesome!

IF THIS DOESN'T CONVINCCE YOU!

LOW CASH FLOW MIGHT! One you have to put up signs such as: DO NOT PET THE WOLVERINE, DO NOT POKE THE WOLVERINE, DO NOT TAUNT THE WOLVERINE, DO NOT FEED THE WOLVERINE CAUSE I'M SURE IT WILL FIND YOUR HAND TASTY TOO!, DO NOT SUE US BECAUSE OF THE WOLVERINE, HELL, DON'T EVEN FUCKIN LOOK AT IT!

-PLEASE FOLLOW ALL SAFETY MEASURES TO ENSURE THAT YOU ARE NOT HURT IN ANY WAY, SHAPE, OR FORM. IF YOU BREAK ANY OF THESE SIGNS IT, YOU WILL MOST LIKELY BE HURT MENTALLY, PHYSICALLY, OR EMOTIONALLY. PROBABLY BOTH!

~This would be the perfect sign to put next to your wolverine exhibit =D

!!!GOOD LUCK!!! YOU NEED IT

AUTHORS NOTE!

Sadly, this book is coming to a end! This holiday edition is for free, because we could not get it to sell! SO we are giving it out as a 50 cent sale! By the end of the book we figure out that this For Dummy book greatly contradicted itself. It was supposed to teach you how to keep them as a petting zoo pet but we learned that it was a impossible task, so we decided to inform you about why you SHOULD not keep them as pets besides the reason that they are wild animals. Also, by then we learned that the writer had no experience with wolverines but it was too late. SOOO we published it!

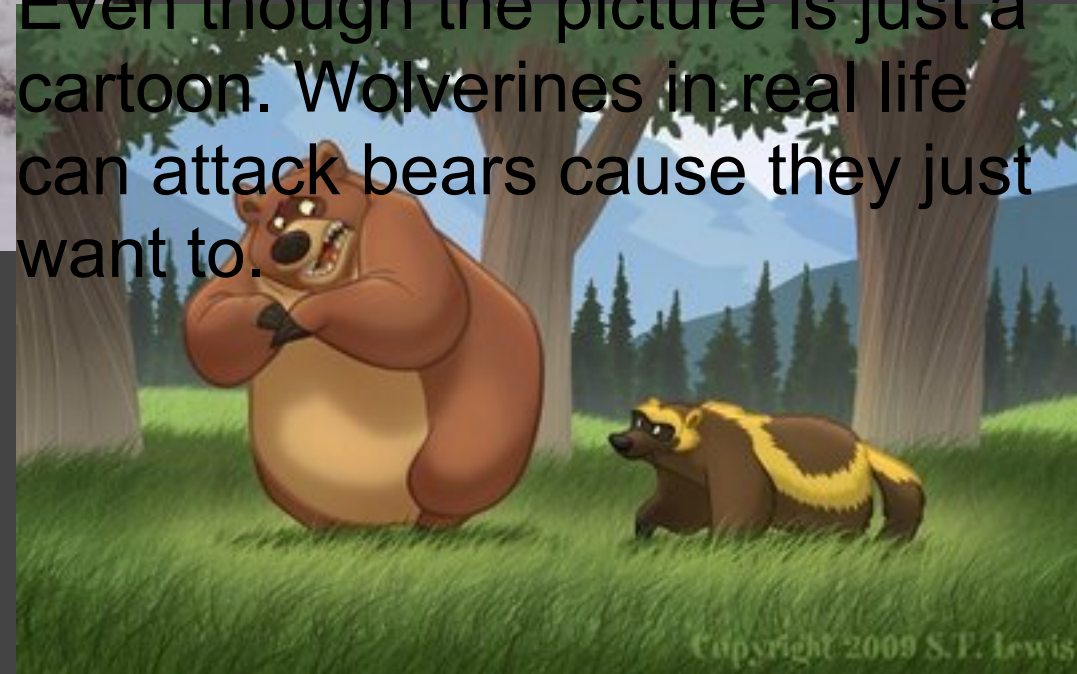

HAPPY HOLIDAYS!

JUST IN CASE THAT DIDN'T SCARE YOU ENOUGH....

Yeah your seeing that right! They need three **THREE** freakin people to capture a wolverine

Even though the picture is just a cartoon. Wolverines in real life can attack bears cause they just want to.

YOU CAN NEVER ESCAPE
THEM! THEY CAN CLIMB
TREES!

By now its probably too late!
You probably already got your
wolverine from who knows where.
All I can say is Good Luck!
